EXPERIENCE

Self Project, — *Prison Reform*

September 2022- PRESENT

I developed a multi-component site showing reformed prisoner-friendly jobs. The site's idea is to give reformed prisoners a chance.

Self Project, — *Figma to Code 1*

April 2023 - April 2023

I developed a site from a Figma design file. I took out portions of the site during this project to improve user experience.

Link to the site – https://christopherb91.github.io/FigProject1/

Self Project, — *Omni App*

June 2023 - June 2023

Similar to a Pokedex app the Omni App shows an alien from the TV series "Ben 10" and tells you their species name and the nickname that Ben has given them, it also shows whether or not there is an ultimate transformation.
